

**Light Green - #4 – (West of Cap-Haitien)
Ebenezer Clinic
Haut-Limbe, Haiti**

During our 2006 medical mission trip to Haiti, I was approached by Dr. Steve James, a full-time missionary physician in Haiti, to assess a clinic he serves in Haut-Limbe called Ebenezer Clinic (upper left panel). In June of 2007 Randolph World Ministries, Inc. sent a team of 12 to Haiti. A subset of this team composed of Christine Bremser (center position of upper right panel) and Long Pham (not pictures) assessed Ebenezer Clinic which is now a permanent client of Randolph World Ministries, Inc. The clinic has two laboratorians, Roselyn and her colleague pictured in their laboratory in the lower right panel. The lower left panel depicts a typical exam room. The clinic is also staffed by a permanent Haitian physician, Dr. Emmanuel Mareus (alias Dr. Manno) and two nurses. The ministries of the clinic are directed by Pastor Maclly Payoute. Dr. Steve James makes regular visits to assist and develop the services at Ebenezer Clinic.
